LIVING HISTORY**

Pacific Northwest - The NWA (Northwest Historical Association) is a World War II reenactment organization. Their membership represents both Allied and German forces in the European Theater of Operations from 1941-1945.

The purpose of the non-political, non-profit association is to further public interest and education in WWII history and to honor the memory of those who served in the military during this incredible conflict.

The NWA has a long history of working with museums, veterans associations, and current military groups to help promote the important history of WWII.

This event, sponsored by the Friends of Old Fort Stevens, will be a wonderful opportunity for the public to see first hand how the war was fought and won!

Come and see how the common man overcame a ferocious adversary to bring freedom and liberation to Europe! Meet with historians and get a first-hand look at some of the vehicles, weapons, uniforms, and equipment that helped win the war!
